**Planning and Development**

1. This Special Use Permit (U-0119-98) shall expire on November 23, 2013 unless another Extension of Time is approved by the City Council.
2. Conformance to the conditions of approval of the Special Use Permit (U-0119-98) and all other site related actions as required by the Planning and Development Department and Department of Public Works.

**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

The subject site is undeveloped land with a previously approved Special Use Permit (U-0119-98) for two proposed Electric Utility Substations. One substation at the 215 Beltway along with the transmission lines has been completed. No building permits or plans have been submitted for the second substation at Far Hills Avenue. The applicant is requesting an extension of time to construct the second utility substation to allow development in the surrounding area to warrant the additional load requirements for the substation. Staff recommends approval.

## ANALYSIS

This is the third request for an Extension of Time of a previously approved Special Use Permit (U-0119-98) for two Electric Utility Substations. The first electric substation (Beltway Station) was completed in 2003 approximately 0.7 miles to the east of the subject site. Construction on the second station (Far Hills Station) has not yet begun as development in the surrounding areas has not materialized as anticipated, thereby not warranting the increased load requirements to constitute the building of the second station.

## FINDINGS

The Special Use Permit (U-0119-98) has not met the requirements outlined in Title 19.18.060 to exercise the entitlement for the second substation. The applicant is requesting an extension of time to allow the surrounding areas to develop to warrant the need for the second substation. Staff is recommending approval of this request with a four-year time limit. Conformance to the conditions of approval of the Special Use Permit (U-0119-98) shall be required.
